

After Hurricane Irma

Update #4

HUGE shout to Mary and Lonny Copeland!!!!

They have provided most, **if not ALL**, the pics you will see. We have many homes that have sustained mild to extreme damage. Lonny and Mary are not only on the ground taking pictures, but are also attempting to move debris. So if you have contacted them with a request and have not heard back... **PLEASE BE PATIENT!** They are doing as much as they can.

I am including **approximately 10 pics at a time** to enable people on mobile devices to get these articles easier. I will issue several updates today to include all the images I have. Please advise me if you experience any difficulties in opening or viewing these emails.

As more information comes in I will try to update everyone ASAP!
If anyone has more images to share, please email me at clceblast@gmail.com so we can help those folks not on FaceBook to get updated.
